

**Scenario:**

You are a professional working in Columbia, SC during the time of the coronavirus pandemic. One day, you find yourself feeling slightly under the weather, and would like to find a testing center to find out if you have COVID-19.

Task 1: Find the nearest testing center.

Task 2: Find directions to that testing center.

Task 3: Find the results from the test.

Need to change:

- Link the directions to a mapping
- Add a back button
- Add a menu for easier navigation

Need to keep the same:

- Simple layout
- Easy to follow instructions
- Ability to save test report and have it emailed
